

MOHAMAD MERHI

JUNIOR GAME DEVELOPER & FRONT-END DEVELOPER

✉ modimerhi@gmail.com

🌐 MMerhi27

PROFILE

Junior Game Developer and Front-End Developer with hands-on experience in Unity and C#, focused on 2D game development. Also experienced in front-end development using HTML, CSS, and JavaScript. Familiar with gameplay programming, UI development, animations, debugging, and Git/GitHub. Passionate about creating engaging games and clean, responsive web interfaces. Currently developing personal projects while continuously improving my skills.

PROJECT

merhiProjectGame2D

2D Unity Learning Project — In Development

- Developed core 2D gameplay systems using C# and Unity.
- Implemented player movement, jumping, and character animations.
- Added coin collection and a score system.
- Created basic UI and menu systems.
- Worked with Unity's 2D physics and collision/trigger systems.
- Debugged and fixed C# and Unity errors encountered during development.
- Adapted tutorial-based code and added personal modifications and fixes.
- Practiced Git and version control during development.
